

"Hi, here's a little message from your hard sampling comrades COLDCUT. If you can't make a dance smash out of this lot - get out of town!"

Jonathan More.

Matt Black

Coldcut's KLEPTOMANIA! volume 1

Featuring a
cast of over
1150 samples!

- ☐ HAND HELD SAMPLE LIBRARY
- ☐ NON-STOP ZANY ACTION
- ☐ NOT SUITABLE FOR SMALL CHILDREN
- ☐ BATTERIES NOT REQUIRED
- ☐ USED BY SOUND PIONEERS WORLDWIDE

HITCD09

The personal library of probably the UK's
most innovative purveyors of dance music.
1164 Samples, 73:02 minutes.

HITCD 09

HitMusic

**HitSound Producer Series
Coldcut's Kleptomania Volume 1**

© 1992 - Hit Music Productions
See Booklet for details

A sampling CD is supposed to be a collection of sounds that you can load quickly and easily into your sampler and then use in your music. That is what you expect when you buy a sampling CD, and that is what you should get. Sometimes you get something more. When we started producing sampling CDs we found that we were often getting more than we expected, the HitSound Producer Series therefore pretty much invented itself. Usually it's the virtuoso performance that such talented performers as Danny Cummings, Miles Bould and David Ruffy are able to deliver that breaks the 'sound barrier'. However there is another rare breed of people whose understanding and feel for sound and music is able to almost become digitally encoded on CD along with the sounds themselves. Pascal Gabriel is one of those people, Matt Black and Jonathon More are two more. Please utilise this unique feature of 'creativity'. You can't buy it, you can't fake it. Coldcut have more of it than just about anyone currently making dance music. They are not scientists or techno-freaks. They are music lovers and innovators who make the technology work for them. After three successful volumes were completed we knew it was going to very hard to be able to come up with another volume to carry the torch ignited by the first three. We shouldn't have worried. Coldcut's talent has shone through just as brightly as their predecessors'. We'll keep up the search for more of this rare breed and try and capture them on CD for you. In the meantime enjoy this CD and your music, and best wishes in your quest to 'break the sound barrier'. - **Matthew, AMG**

Demo Track

Track 1

'We Need A Beat'

by Lee Groves for Hit Music
Productions

Loops Heavy

Track 2

BT Stomp - 122 BPM
Double Swing - 110 BPM
Bounce - 111 BPM
Fast Bounce - 120 BPM
The Clap - 98 BPM
Dangerous - 109 BPM
Posse - 127 BPM

Throp 2 - 129 BPM

Hat Loops

Track 13

Techno Hat - 128 BPM
Party Hat - 133 BPM
Baseslurp - 133 BPM
Stamp it out - 98 BPM

Key to Coldcut terminology by Matt Black:

HPN - House Punchy Noise. Sometimes called a Stab.

Hed Noise - A stupid noise, as in "Give me hednoise", which grabs your head. The archetypal hednoise is the 'kettle' on Public Enemy's 'Rebel without a Pause'.

Bread - Awesomely heavy.

Fills & Rolls

Key to Coldcut terminology by Matt Black:

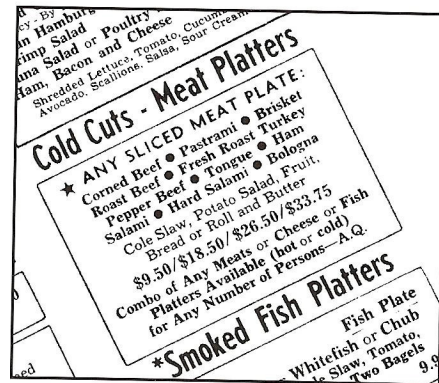

Holligan - Pertaining to hardcore house/Shut Up + Dance/ignorant sound.

Slurper - Verb; eg "we just slurped a load of glitching hednoise over a hooligan brake and it sounded dread". Also an open disco flying hi-hat.

Stop - a turntable effect where you stop the deck dead on the beat. Typical of techno mixing style.

Spinback - another techno deck effect where you spin one record back with great force and harshness before chopping to another.

Transform - a scratching technique giving a gated effect.

Menu from Jerry's Famous Deli, Ventura Blvd., Los Angeles - Thanks to Lorri.

"Thanks again for the meal Terry."

"Leave it aht, Artur!"

All rights of the producer and owner of this work reserved. Unauthorised copying, hiring, renting, public performance and broadcasting of this CD is prohibited. Purchase of this CD entitles the purchaser to use the audio material featured in their music, not for the creation of any competitive product. Any infringement of copyright will be pursued to the fullest extent of the law.

Technical Information

Tracks can be selected as usual via your CD's track select buttons. In addition many sounds within tracks can be directly accessed by using your CD's index select buttons, if featured. All samples have been normalised to ensure uniform volume throughout for easy sampling, in addition to a test tone. Some of the samples featured may not conform to the highest audio quality available, but this rawness is an essential ingredient in any dance mix.

General

This CD was compiled from 45 Meg cartridges using a Mac Ilcx with 780 Meg HD.

Made in the UK
